

Recabites Youth Ministries International

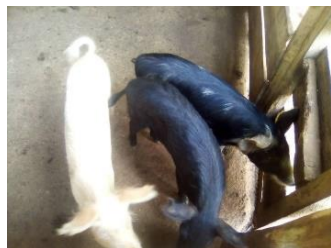

Dear friends/sponsors of the Recabites,

10/9/2023

After a few busy months, we are happy to update you about the developments within our ministries. In this newsletter we will update you about our tailoring, piggery & soccer project. Also we will share about the visit of some of our sponsors to Uganda.

Sewing

We want to start this newsletter with thanking the Lord as our tailoring project is running successfully. The students are still studying from Monday to Friday. Every Wednesday we organize a Bible study, counselling or guidance session. This has helped them to grow both spiritually and mentally. Our students have managed to make different types of clothes and bags. They have made dresses, shorts and shirts for young children, and they have made bags for toiletries and sanitary pads. Their active participation and commitment is really impressive. We hope to give out outfits to the children in Kalungami in the coming weeks. It is great that in that way we can serve two purposes; giving the students opportunity to learn, while helping children who have few clothes.

Pigs

Earlier we already informed you about the resuming of the piggery project. The pigs are growing, so we are waiting for them to be bigger before we can start handing them out in the community. For now, we are glad that the pigs are doing well and that the disease has ended that affected them last time. We will keep you updated on their growth.

Soccer

We are the champions! In June the league ended and Victorious FC managed to finish in first position out of eleven teams. This made the team to become the champion and to be promoted to a higher league. We are really thankful for this great achievement. It shows the talent and dedication of the boys that are part of Victorious. After a break, the training resumed halfway August. In the break we have been busy working on registering the team in the new league that it was promoted to and signing new players. Also our coaches Anifu and William upgraded their coaching papers as they obtained the CAF D coaching diploma. It is great to see the impact the team has had in some of the players' lives. Some boys have overcome addictions, others have discovered their abilities and strengths. Through training together, they have become a

family. As we are preparing for the next season, the team is still missing some equipment to prepare very well, such as balls, cones and training bibs. One ball is 25 US dollars, each cone is 2 US dollars and a set of training bibs is 30 US dollars. If you want to contribute to this project, feel free to send us a message or donate on the bank account number below.

OTHER

Besides the running of our three main projects, we also had our first visitors in May. We thank God who enabled our visitors Jan Herre and Aukje to reach safe in Uganda. It was really a blessing to receive them. We had a good time and shared a lot concerning our projects in the organisation. Also they advised us about our sewing, soccer and piggery project. We are looking forward to receiving more visitors in the future. Furthermore, we are thankful

for all the fundraising activities that take place in the Netherlands, such as the work on our website, selling second hand items on flea markets and selling products from the tailoring school. Thank you for your support and involvement. May God bless you.

Connected in Christ,
Anifu, Ben-Alex, Elise, Joel and William

Thanking:

- That Jan Herre and Aukje reached safe
- That our soccer team finished in first position in the league
- That the students of the tailoring project are hardworking and determined
- That we managed to get a P.O. Box for the organisation

Praying:

- That we will get the necessary equipment to start the new soccer season well
- That the girls of the tailoring school will keep on getting inspired through the Bible studies and counselling
- That we will receive enough donations to cover the increasing costs of the soccer competition
